OBJECTIVE

Secondary school mathematics teacher of 11 years moving into data analytics. Self taught in Python and SQL over the past two years, with four analytics projects built for my own school and now in daily use by staff. Seeking an entry level analyst role where a strong statistics background and a track record of explaining numbers to non technical audiences are useful from day one.

TECHNICAL PROFICIENCIES

Python, SQL, Excel, Power BI, pandas, matplotlib, Google Sheets, Jupyter

PROJECTS

Student Performance Dashboard - Built a Power BI dashboard tracking results for 600 students across 4 academic years, broken down by subject, teacher and cohort. Adopted by the school leadership team and reviewed at every termly staff meeting.

EXPERIENCE

Mathematics Teacher, Vidya Public School, Bengaluru (2014 - Present)

CERTIFICATIONS

Google Data Analytics Professional Certificate (2024)

EDUCATION

B.Ed Mathematics, Bangalore University (2013)
