OBJECTIVE

Secondary school mathematics teacher of 11 years moving into data analytics. Self taught in Python and SQL over the past two years, with four analytics projects built for my own school and now in daily use by staff. Seeking an entry level analyst role where a strong statistics background and a track record of explaining numbers to non technical audiences are useful from day one.

TECHNICAL PROFICIENCIES

Python, SQL, Excel, Power BI, pandas, matplotlib, Google Sheets, Jupyter

PROJECTS

Student Performance Dashboard - Built a Power BI dashboard tracking results for 600 students across 4 academic years, broken down by subject, teacher and cohort. Adopted by the school leadership team and reviewed at every termly staff meeting.

Attendance Predictor - Trained a logistic regression model in Python that flags students at risk of dropping out, using 5 years of historical attendance records. Identified 23 at risk students in its first term, 19 of whom were correctly flagged.

Timetable Optimiser - Wrote a Python script using constraint solving to generate the school timetable, replacing a manual process that took two staff a full week.

Exam Question Analysis - Analysed 8 years of exam papers with pandas to find which topics were most frequently examined, and rewrote the revision plan around it.

EXPERIENCE

Mathematics Teacher, Vidya Public School, Bengaluru (2014 - Present)

- Taught mathematics and statistics to 180 students per year across grades 9 to 12.
- Designed and ran the school's first data driven attendance monitoring process.
- Led a team of 4 teachers through a curriculum redesign for the statistics module.
- Improved grade 12 mathematics pass rates from 78% to 91% over four years.
- Trained 15 colleagues on using spreadsheets for assessment tracking.

Private Mathematics Tutor, Self employed, Bengaluru (2013 - 2014)

- Prepared 20 students for competitive entrance examinations.

CERTIFICATIONS

Google Data Analytics Professional Certificate (2024)

IBM Data Analyst Professional Certificate (2024)

DataCamp Associate Data Analyst track (2023)

EDUCATION

B.Ed Mathematics, Bangalore University (2013)

BSc Mathematics, Christ University, Bengaluru (2011)
