Stakeholder reporting

EXPERIENCE

Data Analyst, Cedarpoint Retail, Austin (2022 - Present)

- Maintained 30 Looker dashboards for the merchandising and supply chain teams.
- Automated a weekly sales report that previously took 6 hours to assemble by hand.
- Built the SQL models behind the company's store level margin reporting, now the source of truth for monthly business reviews.
- Partnered with the pricing team on a markdown analysis that recovered an estimated 1.4M dollars of margin in one season.
- Wrote the onboarding documentation for the analytics stack, used by 6 new joiners.
- Ran a monthly office hours session teaching SQL basics to non technical staff.

Business Analyst, Cedarpoint Retail, Austin (2021 - 2022)

- Analysed store level sales performance across 45 retail locations.
- Built the weekly trading pack circulated to regional managers.
- Investigated a stock discrepancy that traced back to a duplicated feed, preventing roughly 200,000 dollars of incorrect reorders.
- Supported the annual budgeting cycle with historical trend analysis.

Analytics Intern, Lone Star Insurance, Austin (2020 - 2021)

- Built claims summary reports in Excel and Tableau.
- Cleaned and reconciled 5 years of policy data ahead of a system migration.

ACHIEVEMENTS

Cedarpoint Retail Analyst of the Year (2023)

Reduced reporting turnaround for the merchandising team from 3 days to same day.
